

GENERAL LUNA WAS WOUNDED

San Fernando Captured by American Troops.

GENERAL FUNSTON RECEIVES A SLIGHT WOUND.

Route of the Enemy at San Thomas Was Complete, the Filipinos Fleeing on Trains Toward San Fernando—Left Town a Complete Ruin, Destroying Nearly Every House by Fire—Value of Subsistence Captured at Malolos Placed at a Million and a Quarter Dollars—Four Americans Killed in Battle.

Manila, May 5.—[Special]—General Luna, commanding the Filipinos, was wounded in the fighting which occurred yesterday around San Tomas. The route of the enemy at San Tomas fight was complete, the Filipinos fleeing on trains toward San Fernando.

They left the town of San Tomas, a complete ruin, nearly every house in the place having been destroyed by fire. The advance on San Fernando was resumed this morning.

Agulnido's Stronghold Taken. New York, May 5.—[Special]—The Evening Journal's Hong Kong dispatch says: "San Fernando, Agulnido's stronghold, was captured by the Americans."

INDULGING IN PETTY ATTACKS. Rebels Became Bolder and Attempted to Break Through Lines.

Manila, May 5.—[Special]—The rebels south of Manila, who have been indulging in petty attacks on the Americans recently, became bolder last night and made an attempt to break through Owenshine's lines.

They were easily routed, but maintained a desultory fight on the American position for some hours afterward.

The navy co-operated today with the land forces in punishing the rebels who made the attacks.

At daybreak the Monadnock drew in close to Paranaqua and began shelling the place and the bombardment has continued all day doing tremendous damage.

MacArthur occupies San Fernando today, which place has been evacuated by the rebels, who retired north on trains.

A small detachment of rebels were left to cover the retreat. The Filipino army was quickly routed by the Americans without loss.

Our soldiers went to work to extinguish the fires started in the town by the rebels.

GEN. FUNSTON RECEIVES WOUND. Otis Reports Casualties at San Tomas Yesterday.

Washington, May 5.—[Special]—The following was received from Gen. Otis this morning: "The following casualties reported at San Tomas yesterday: Lieut. Teggart, of the Twentieth Kansas, and four enlisted men were killed; three officers and twenty-two enlisted men were wounded."

Among the wounded were Gen. Funston, hand, slight.

"Lawton reports the capture of a hundred and fifty bushels of rice and two hundred and fifty tons of sugar at Balinag. The value of the subsistence captured at Malolos is a million and a quarter dollars. There were large captures of rice and corn belonging to the enemy at other points. The insurgents destroyed by fire yesterday the town of San Fernando and last evening fired San Fernando."

DRAWING ATTENTION OF OFFICIALS. Pamphlet Regarding Philippines Prepared and Used Abroad.

Washington, May 5.—[Special]—Another pamphlet regarding the Philippines, prepared and used abroad has drawn the attention of the government officials.

It charges Dewey, Merritt and Otis with duplicity. It says Consul Wildman scooped in ten thousand dollars for silence money and that the conflict with the Filipinos was precipitated by the Americans that they might not be called upon to execute their promises. It also says that the Filipino women and children are ruthlessly slaughtered, and finally that it is common talk that American officers stripped the buildings of all kinds of valuables.

Discussed at Cabinet Meeting. Washington, May 5.—[Special]—The seditious pamphlet prepared by Edward Atkinson and other anti-expansionists was discussed at today's meeting of the cabinet.

Postmaster General Smith announced that if an order prohibiting the sending through the mails of pamphlets was disobeyed the offender would be vigorously prosecuted.

Washington, May 5.—The war department is satisfied, from the dispatches received from Gen. Otis, that the American commander has put aside the insurgent temporizing over peace and has turned his attention to most aggressive tactics. The wisdom of this course was fully approved by

officials here, who have foreseen that the rebels needed further chastisement in order to bring them to a realizing sense of their position.

The early dispatches from Gen. Otis clearly defined the general plan of his latest movement. He is moving in two main columns, Maj.-Gen. MacArthur pushing straight forward over a nine-mile stretch of country between Calumpit and the latest rebel stronghold, San Fernando, and Maj.-Gen. Lawton, directing a strong force under Col. Sumner to prevent the insurgents from retreating from San Fernando into the mountains to the north. The later dispatches showed that there had been hot work in the execution of this movement, particularly in Gen. MacArthur's advance on San Fernando.

The defeat of Luna at San Tomas and the scattering of the insurgent forces leaves MacArthur four miles from San Fernando with a clear road before him. He will take the city today, according to Gen. Otis' plans.

The taking of towns is no longer looked upon by the authorities here as of chief moment, the main consideration being to intercept the insurgents.

Gen. Lawton's movement northward to Maasin is designed to keep a body of American troops to the north of the rebels and between them and their line of retreat to the mountains. A successful execution of this move will leave the insurgents well-nigh surrounded on the north, though there is a stretch of about seven miles from Maasin to the Rio Grande along which the rebels are retiring. If the rebels do succeed in getting into the mountains war department officials believe they cannot continue organized resistance, as the mountain localities afford much less opportunities for sustenance than the rich lands along the foothills and bottoms. The authorities here are well satisfied with the manner in which our forces are placed.

TAKING OF SAN TOMAS. Daring Charge by the Americans in Which Funston is Conspicuous.

Manila, May 5.—Maj.-Gen. MacArthur has carried San Tomas, after encountering a strong resistance.

Brig.-Gen. Hale moved on to the enemy's right, and Brig.-Gen. Wheaton attacked the left in a daring charge, in which Col. Funston again distinguished himself. The Kansan was wounded in the hand, and several other officers and enlisted men were also wounded.

Col. Summers, with a party of the Oregon and Minnesota regiments and a gun of the Utah battery, took Maasin on the right, resting four miles from San Fernando.

The Filipinos are retreating toward San Isidro, and it is expected that they will make a stand at Arayat, at which place the whole of the rebel forces in the province of Panpanga is concentrating.

Filipinos Are Wavering. It is reported that, impressed by recent events, the Filipinos are wavering in their allegiance to the insurrection and are likely to assume a neutral attitude. It seems as though Gen. Antonio Luna's forces are destined to destruction within a few days unless they surrender or scatter.

More than 100 sick and wounded men from Gen. Lawton's brigade were brought to Manila from Malolos by last night's train.

The heat is unbearable.

Cannot Touch a Homestead. Savannah, Ga., May 5.—Judge Spear of the Federal District court for the Southern District of Georgia has made an important decision under the national bankruptcy law. It is to the effect that the United States courts have no jurisdiction over a homestead taken by a bankrupt; that the homestead belongs to the state courts and cannot be considered in the United States court as an asset of the bankrupt, and as regards the homestead the trustee of the bankrupt must look elsewhere than to the United States court.

BOERS DO NOT FANCY GREAT BRITAIN'S DEMAND.

London, May 5.—[Special]—A Cape Town Telegram says that Chamberlain's dispatch to President Kruger of the Transvaal, protesting against the dynamite monopoly, amounts to an ultimatum, as it means the Boer government must recognize the suzerainty queen. The Boers think that Great Britain's demand attacks their independence, for which they are willing to fight.

Doyle while in Pana were arrested by the militia and taken to camp, where they were forcibly disarmed, they having refused to give up their revolvers, claiming that as peace officers they were entitled to carry weapons. The two suits are to replace the revolvers. Refusal to surrender the revolvers will place the military authorities in contempt. Suits for \$5,000 damages were also begun by Downey and Doyle.

Royal Headgear. The coronet of a Duke consists of alternate crosses and leaves, the leaves being a representation of the leaves of the parsley plant. The Princes of the royal blood also wear a similar crown. The state headgear of a Marquis consists of a diamond surrounded by flowers and pearls and placed alternately. An Earl, however, has neither flowers nor leaves surmounting his circlet, but only points rising each with a pearl on the top. A Viscount has neither flowers nor points, but only the plain circlet adorned with pearls, which regardless of the number, are placed on the crown itself. A Baron has only six pearls on the golden border, not raised to distinguish him from an Earl, and the number of pearls renders the diadem distinct from that of a Viscount.

NAVY DEPARTMENT FINALLY SUCCEEDED

Decipher Dispatch From Admiral Kautz.

IT GIVES RELIEF IN UNITED STATES MILITARY CIRCLES.

The Officer Says All Is Quiet at Apia—Mataafa and His Chiefs Agree to Keep Outside the Lines Prescribed by the British Senior Officer and the Author of the Cablegram, and to Observe Peace. Until the Arrival of the Samoan Commission—Thinks There Will Be No More Fighting.

Washington, May 5.—[Special]—The navy department has finally succeeded in deciphering the dispatch from Admiral Kautz. Its full text is as follows: "All quiet at Apia. Mataafa and his chief have agreed to keep outside the lines prescribed by the British senior officer and myself and to observe peace until the arrival of the commission. I think there will not be any more fighting."

The above report gives relief in official circles here.

Auckland, N. Z., May 5.—Advices received here from Apia, Samoa, under date of April 27, state that the rebel loss by the shelling of the Matafaan stronghold at Vailima by the warships of Great Britain and the United States was quite heavy.

Many of the rebels were wounded. The house in which the late Robert Louis Stevenson lived was riddled with shot.

April 22 there was a sharp skirmish between rebels and Lieut. R. A. Gaunt's brigade near the town of Vailima. In this engagement one Matafaan was killed. The lines of the friendlies were attacked in the darkness at two points, but none of them was killed.

April 23 there was some bush fighting. Lieut. Gaunt's brigade, numbering 900 men, advanced under a hot fire. The enemy lost several men, the bodies of the dead being dragged away.

Of the friendlies, one was killed and three were wounded. The British lieutenants, Innes, Hickman, Shuler and Heathcote, under Lieut. Gaunt, led the loyalists.

The New Zealand government steamer Tutaneke has arrived here with dispatches announcing that the request of the international commissioners that the inhabitants peacefully await the arrival of the commissioners who are now on their way to the islands from San Francisco has been without result.

King Tanu visited Admiral Kautz and Capt. Stuart on board the American and English ships respectively and was received with the customary salutes on his arrival and departure.

Hufnagel, the manager of the plantation upon which an attack was made on British and American sailors, resulting in the death of Lieut. Freeman of the British navy, Lieut. Lansdale and Ensign John R. Monaghan of the United States cruiser Philadelphia and two others, is still detained on board the German cruiser Falke.

A majority of the inhabitants are highly dissatisfied with the cessation of hostilities. They say that Mataafa is beaten now, and that the trouble would all be ended in a week or ten days were the advantage pushed.

The rebels are delighted at the delay. It will give them time to refill cartridge shells and build more forts. It is the general opinion that the island will be uninhabitable, except for Germans and Frenchmen, unless Mataafa and the rebels chiefs are severely punished.

Thinks the Situation Grave. Berlin, May 5.—The Cologne Gazette says that by reason of the suspension of hostilities the situation in Samoa has become exceedingly grave. Indeed, the present tension has no precedent in the history of the Anglo-American disturbance.

The National Zeitung publishes a dispatch dated Apia, April 12, which says: "Orders from London and Washington to suspend hostilities have brought tranquility and peace. In compliance with the demand of the German consul, Mataafa has gone back a long distance westward into the interior, so there is no danger of a collision with his troops. We Germans, of course, are naturally satisfied that our patience and impartiality have finally triumphed after all."

OBJECTED TO THEIR SEEING DAUGHTER

AN INTERESTING CASE SCHEDULED FOR MONDAY.

Because Mr. and Mrs. Christine J. Munke Went to Call on Their Own Daughter, They Say They Were Assaulted by Paul Schroeder—Several Witnesses Subpoenaed.

Monday morning, at 10 o'clock, in the Rock county municipal court, will be called the assault and battery case of the State of Wisconsin vs. Paul Schroeder.

According to the complaining witness, Christine J. Munke, he was assaulted by the defendant for no other reason than that he expressed a desire to call on his daughter, who is employed on the Schroeder farm in the town of Milton.

Not having seen his daughter for over a year and a half, Mr. Munke proposed to his wife that they drive over to the Schroeder farm and spend the day with the young lady. Mr. and Mrs. Munke drove to the Schroeder farm and on entering the yard met Mrs. Schroeder, whom they alleged, informed them that their daughter did not care to see them and that they had better clear out.

While the conversation was at its height, Schroeder put in an appearance and, according to Munke, administered to him a brutal beating.

Mr. and Mrs. Munke then drove home without seeing their daughter and from home drove to Janesville and procured a warrant for the arrest of Schroeder.

Officer Wallace Cochran was in the town of Milton today securing several witnesses and when the case is called Monday morning it promises to be of special interest.

Attorney J. J. Cunningham will represent the state.

Shot Two Porkers
Yesterday afternoon in the municipal court Rudolph Schlesinger, of Happy Hollow, was arraigned on the charge of killing two hogs belonging to Luke Welch and M. G. Olstedt, neighbors in the town of Rock. Schlesinger entered a plea of not guilty and the case was continued until Saturday, May 13th. Defendant furnished \$100 bail.

The complaining witnesses claim that the defendant just to be mean shot the two hogs just to show that he was not afraid to commit the act.

Schlesinger claims that the hogs bothered him by going on his property, causing damage.

The case promises to be a stubborn fought one.

Girls Pay Fines
Laura Williams and Carrie Mosher were before the court on the charge of being naughty girls. Judge Fifield gave them a fine amounting to \$15 and costs, or a total of \$17.41 each, which they paid.

The defendants tried to explain matters in court to the effect that Chief Hogan had not only hurt their feelings by causing their arrest, but that he had done them a great wrong.

To make their case all the more pathetic both girls departed from the court room sobbing as if their hearts would break.

RETAIL CLERKS MAY FORM UNION HERE

MEETING CALLED FOR THIS EVENING.

Dry Goods and Grocery Clerks May Decide to Become Members of the Retail Clerks' National Protective Association—Prominent Labor Union Men Now in the City.

At the Armory this evening, the grocery and dry goods clerks of Janesville will assemble for the purpose of forming a union known as the Retail Clerks' National Protective Association.

Ten charter members are all that are necessary to start such a union in the Bower City.

In case the grocery and dry goods clerks deem it advisable to form one union jointly such a plan will be carried out.

Charles W. Teney of Milwaukee, a member of the executive board of the State Federation of Labor, and R. A. Pratt, a prominent labor union advocate from Milwaukee, are now in the city in the interest of organized labor and to look after the coming state labor union meeting to be held in June.

A canvass of the city today has convinced Mr. Teney and Mr. Pratt that the dry goods and grocery clerks are highly in favor of a local union.

Many of the clerks have stated that a union is a move that should have been carried out years ago.

Such an organization, working jointly with the other local unions, would give the retail clerks of Janesville their say in a number of matters that, it is claimed, would be for their own mutual benefit.

In many cities not half the size of Janesville, retail clerks unions hold forth.

Mr. Teney stated this morning that he was surprised to see the good work that has been accomplished here of late by the local committee who have been laying plans for the coming state convention to be held here on June 13, 14 and 15.

"No city that has ever had the state convention has ever made such complete previous arrangements," said Mr. Teney this morning, "and the citizens of Janesville are to be congratulated for taking such a hearty interest in the movement."

Meeting of the Murphy Blue Ribboners for This Evening.

Members of the Francis Murphy Blue Ribbon League will meet in special session at their rooms this evening for the purpose of appointing a committee of two in each ward to help along the temperance work.

WILL BOWER CITY BE NEXT?
Club Formed and Members Pledged to Marry Widows.

A club with thirty-five charter members, has been formed at Peoria, Ill., and all the members pledged to marry none but widows. There is no age limit or other requirement placed upon the widows, in fact any widow will do.

The promoters of the club say their object is a worthy one; that eligible girls experience no trouble in securing husbands, but a widow is handicapped, especially if she is left with children.

The club has no treasurer, as there are no dues, and the fines are immediately used up in entertainments.

When a member violates the rules of the society and marries other than a widow he must pay a fine of \$5 and must invite the club to the wedding and take whatever punishment the members see fit to impose. But, whether invited or not, the club retains the right of attending the wedding, and will do so.

SEVERAL SALES

IN LEAF TOBACCO

EASTERN FIRMS MAKE LARGE PURCHASES.

Philadelphia and New York Houses Are in the Field with New Buyers—Many of the Warehouses Are Still Busy Handling Bundle Goods—Other Notes.

The recent large movement among packers is reflected as a disposition to gather in more of the remains of the '98 crop remaining in the country. Several hundred cases have been purchased during the week by Child and Baines from growers in and about Stoughton says the Wisconsin Tobacco Reporter at prices that do not vary much from former quotations.

The air has been filled with rumors of sales of packings of late and some large transactions have in fact taken place. It is difficult to get at the details of all these trades, though it is definitely known that the Eckhart packing of '98 at Viroqua, of about 2,500 cases, has been sold to L. Banberger & Co., Philadelphia. The Eckhart & Shannon packing at Westby, some 900 cases, has also been sold to W. S. Brill for the account of Kerbs, Wirthum & Schiffer, New York. Other transactions of smaller lots are reported, said to include two packings at Stoughton and one here, but particulars are not at hand. Charles L. Cullen reports the sale of 200 cases of '97 for the week.

The week has been especially favorable to the starting of the plant beds, frequent rains followed by warm weather is bringing up the young plants much more quickly than usual and the delays of a late start seems likely to be soon overcome.

The shipments out of storage reach but about 5000, 10 car loads, for the week to all points from this station. Since last report 2,774 cases of cigar leaf were exported from New York.

Chicago Live Stock Report.

Chicago, May 4.—Only moderate receipts came to hand for the Thursday trade, but business had rather weaker tone than Wednesday. Values for cattle held without quotable change, but good hogs sold mostly 5c lower than morning prices Wednesday, though the plain and mixed packing could be bought but little lower than late yesterday. Sheep and most clipped lambs sold at steady prices, but many choice woolled lambs were still dragging late in the day, with all bids 10c below the level of Wednesday's sales of such. Receipts were estimated at 9,000 cattle, 21,000 hogs and 12,000 sheep. Late trade in hogs had stronger tone and most of the desirable offerings were bought up before the close.

EXTRA SESSION OF CONGRESS

President May Summon Legislature Early in October.

Washington, May 5.—There is a growing belief among prominent members of congress that the president will call congress to meet in extraordinary session this fall, probably early in October.

The questions which will come before the next congress for settlement, including as they do everything growing out of possessions acquired as a result of the war with Spain and the general legislation, including that relating to currency reform, the Nicaragua canal, merchant marine, etc., are of such great importance that the president is inclined to regard it as advisable that congress should meet earlier than the regular session in December in order to get the work under way.

The retirement of Speaker Reed naturally will entail considerable delay in the appointment of committees in the house, as it is customary to allow a new speaker four or five weeks to make up his committees, and this furnishes an additional reason why congress should be convened before December. Of the senators and members of congress who are going abroad this summer the president has particularly inquired as to the length of their stay and has hinted that it was advisable they should be back in the early fall, as the necessity for an extra session might arise.

HEART FAILURE

has often been styled the cause of death in persons who have long lingered in disease. The amazing work which the heart regularly performs would certainly pre-suppose its breaking down. The most active climber can raise himself 1000 feet in an hour, the best locomotive 4000 feet and the heart 20,000 feet. To preserve its energies in full glow and force, Pabst Malt Extract, The "Best" Tonic, will act as an effective and practical fuel. No steam without fire. No energy without food. No staying power without rich supplies of blood. The heart is the great engine of the body. Keep it going, steadily, easily, persistently, unto a ripe old age.

I have used your Malt Extract where a "Best" Tonic seemed to be indicated, and the results have proved quite satisfactory. Where a malt preparation is required, I shall not hesitate to suggest the use of your preparation.

FIXING WAGES OF MINERS.

Decision of State Board of Arbitration

In the Alton Subdistrict Case.

Springfield, Ill., May 5.—The state board of arbitration rendered its decision in the Chicago & Alton subdistrict case Thursday. This case involves all of the coal mines on the Chicago & Alton railroad south of Springfield.

The hearing was conducted upon the application of the operators only, and the decision is therefore not legally binding upon the miners, but it is the belief that it will be accepted by them. The board fixes the mining price at 35.5 cents per ton run of mine, a reduction of 4.5 cents in the scale price. The demands of the men for narrow work are granted and a substantial advance is made in the scale for top day labor. The board, in addition to fixing these scales, recommends that the rental of company houses be reduced 20 per cent and that the store-order system be entirely abolished and wages be paid wholly in cash or its equivalent. It is estimated by the board that these conditions as to house rent and store orders will be an equivalent to an additional 2.5 cents per ton, making the price actually received by the miners affected thereby 38 cents per ton.

SAY GEN. MILES WILL RESIGN.

Rumor in Washington That Merritt Will Take His Place.

Washington, May 5.—The report of the court of inquiry that investigated the best scandal will probably be given to the press Saturday. In its public form many of the severe censures of Gen. Miles will not appear. There is a vague rumor that Gen. Miles will tender his resignation should the report arraign him severely. The utterances of Gen. Merritt at Detroit in which he praised Secretary Alger, has led to some talk of Gen. Merritt as the successor of Gen. Miles as commanding general of the army.

New Michigan Legislation.

Lansing, Mich., May 5.—The bill providing for the increase of the limit of authorized capital permitted mining corporations has passed both houses. It will doubtless be approved by the governor. Numerous companies have practically completed plans for increasing their capital anticipating the enactment of this law. The house has passed the bill providing for the establishment of day schools for teaching the deaf by the oral method. This body has also passed a law making stringent provisions for the regulation of sweatshops. The senate had a long debate over a resolution, fixing final adjournment for May 31. The resolution was made the special order for May 11.

President to Take a Long Rest.

Washington, May 5.—President McKinley has decided to leave the city next Monday and to remain away for two and possibly three weeks. According to his present intention, the president will spend his vacation at Hot Springs, Va. He is suffering from a slight attack of rheumatism, and is also feeling the strain which has been upon him for many months. He is anxious to enjoy perfect rest and at the same time avail himself of hot baths, which will remove the rheumatic tendency.

Last Dividend of Iron Hall.

Indianapolis, May 5.—Judge McMaster of the Marion county Superior court Thursday ordered the receiver of the Order of the Iron Hall to pay the final dividend—one-fifth of 1 per cent. The distribution of this dividend will close the receivership, which has existed seven years, and which involved the collection and distribution of \$2,000,000. Of the 63,000 members throughout the country 45,000 proved their claims. The total dividend has been 35 1/5 per cent.

Denver Secures the Prize.

Denver, Colo., May 5.—Manager Floto of the Colorado Athletic club has received a message from Julian and Brady saying that Fitzsimmons and Jeffries had signed articles to fight in Denver for a purse of \$25,000 on a date to be fixed at a meeting to be held in Chicago within the next two weeks. Articles are now in the mails to be signed by the local management, after which the work will begin on the new arena to seat 15,000 people.

South and the Speakership.

Washington, May 5.—The candidates for speaker of the next house, especially those in the east, are making earnest effort to secure the votes of the southern republicans. On the final test of strength the southern votes may prove the balance of power. The friends of Representative Sherman of New York are counting upon securing the seven republicans of Kansas for their candidate for speaker.

Arrests at Wardner Are 125.

Wardner, Idaho, May 5.—The troops are continuing the search for dynamiters, and 123 in all have been placed under guard. A detachment of troops has been ordered to Canyon Creek and Mullan, the strongholds of the enemy, and with them will go a number of non-union miners, who will try to identify the dynamiters. It is feared that the desperate men will give battle before they will give in to the officers.

Capital May Reach \$1,000,000,000.

Chicago, May 5.—John W. Gates last night confirmed the rumor regarding the combination of all the large steel companies in the country, and made the assertion that the deal was as far-reaching as the ingenuity of the minds that conceived it could possibly make it. The headquarters of the new company will be in New York, and according to Mr. Gates the capital stock will be between \$500,000,000 and \$800,000,000, and he coolly remarked that the figure might reach \$1,000,000,000.

Tino Present for Capt. Robbins.

New York, May 5.—A special to the Herald from Washington says: "In accordance with the request of Admiral Dewey, Secretary Long has presented to A. W. Robbins, master of the British ship Buccleuch, a fine chronometer in recognition of his services to the Asiatic squadron immediately after the battle of May 1, in communicating with the Spanish governor-general at Manila for Admiral Dewey."

Wisconsin's Shortage Over \$20,000.

Kansas City, Mo., May 5.—An expert examining the books of J. E. Wisconsin, ex-city treasurer of Argentine, Kan., has reported to the city council that he is short between \$20,000 and \$25,000. When Wisconsin resigned and disappeared last week he left word that he was short \$8,000, and assigned his property, valued at about that amount, to the city.

Plan for a Greater Germany.

Hanover, May 5.—The provincial league of the German Maritime association, which has just been established in Hanover, with Count von Duerckheim president, has telegraphed the emperor that its aim is to strengthen the military, political and commercial position of Germany, to develop the influence of the empire throughout the world and stanchly to support all his majesty's efforts directed to the same end.

Aged Woman Killed by Her Daughter.

Chicago, May 5.—Mrs. Catherine Schultz, 62 years old, yesterday morning, in a fit of anger, told her granddaughter, Belle Styles, 16 years old, that her birth was disgraceful. The girl told her mother, Mrs. Augusta Styles, what her grandmother had said. A few hours later Mrs. Styles shot her own mother upon the steps of a public hall, killing her instantly.

"Special-Contract" Insurance.

Indianapolis, Ind., May 5.—The attorney-general of Indiana held, in an official opinion, that "special-contract" insurance is illegal under the laws of this state. Upon receipt of the opinion the auditor of state issued notice that companies doing business in the state must cease writing "special-contract" policies or he will revoke their licenses.

Eved Spain Seeks Share in China.

London, May 5.—A dispatch to the Daily Mail from Hong-Kong says that Spain is collecting evidence with the view of claiming indemnity from China for allowing the steamer Abbey to leave Canton with arms for the Filipinos in 1898. The indemnity claimed will be a cession of territory.

MANY a dutiful daughter pays in pain for her mother's ignorance or perhaps neglect.

The mother suffered and she thinks her daughter must suffer also. This is true only to a limited extent. No excessive pain is healthy. Every mother should inform herself for her own sake and especially for the sake of her daughter. Write to Mrs. Pinkham, at Lynn, Mass., for her advice about all matters concerning the ills of the feminine organs.

INDULGENT MOTHERS

Many a young girl's beauty is wasted by unnecessary pain at time of menstruation, and many indulgent mothers with mistaken kindness permit their daughters to grow careless about physical health.

MISS CARRIE M. LAMB, Big Beaver, Mich., writes: "DEAR MRS. PINKHAM—A year ago I suffered from profuse and irregular menstruation and leucorrhoea. My appetite was variable, stomach sour and bowels were not regular, and was subject to pains like colic during menstruation. I wrote you and began to take Lydia E. Pinkham's Vegetable Compound and used two packages of Sanative Wash. You can't imagine my relief. My courses are natural and general health improved."

MRS. NANNIE ADKINS, La Due, Mo., writes: "DEAR MRS. PINKHAM—I feel it my duty to tell you of the good your Vegetable Compound has done my daughter. She suffered untold agony at time of menstruation before taking your medicine; but the Compound has relieved the pain, given her a better color, and she feels stronger, and has improved every way. I am very grateful to you for the benefit she has received. It is a great medicine for young girls."

For Sale:

My place, known as the Wm. Payne homestead, consisting of forty-three acres, all within the city limits and within four blocks of street cars. The house is a model and all the buildings are first-class. I will sell the place with all farm appliances, horses, Jersey cattle, wagons, carriages and with carpets, carpets and similar household fittings, far below value on account of ill health. Will give somebody a big bargain in order to close the deal at once.

WOULD PLANT GERMAN FLAG

Newspapers Point Out Possibilities in South America.

SOUTHERN BRAZIL THE SPOT.

It Is Urged That the Monroe Doctrine Can No Longer Be Applied—Our Action in the Philippines Caused Its Abandonment.

Bremen, May 5.—The German papers are urging the government to take a new tack in its colonial enterprises. "There is no longer any Monroe doctrine to check us," they say. "It was abandoned when the United States purchased the Philippines and sent its army over there to conquer them. Germany should seek its own advantage in the new American colonial policy by gaining a foothold in South America, where the United States no longer can prevent the powers of Europe from planting their flags."

It is pointed out by these papers that the lands of the Hanseatic Colonization company of Hamburg and Bremen in southern Brazil are larger than all of the grand duchy of Oldenburg. Among the shareholders of this company are many of the high nobility, or so it is rumored. It is urged that the government should negotiate with Brazil for the purchase outright of these lands, on which the German flag should be planted.

The government has recently permitted the North German Lloyd Steamship company to carry German emigrants to Brazil, where they are not lost to the fatherland, but act as advance agents of German commerce. The German government is now supporting a school in southern Brazil.

The sponsors for this scheme declare that Germany, now so strong enough to acquire sovereign rights in South America, and their suggestion is warmly seconded in German shipping circles, where it is pointed out that the fact that these Brazilian lands already are colored as colonies of Germany in Andree's great atlas shows that the preponderance of German interest is recognized. All declare that there is now no need to fear failure such as overtook the attempt of the Mainz Aedelsverein in the republic of Texas during the '40s.

WISCONSIN LEGISLATURE ENDS

Adjournment of the Forty-Fourth Session of State Lawmakers.

Madison, Wis., May 5.—The forty-fourth legislative session of the state ended at noon Thursday, seventeen assemblymen and seven senators remaining to receive whatever messages the governor might have. He vetoed but one bill, that authorizing the building of reformatories by counties jointly or singly. He based his objections not on constitutional grounds, but that the measure contemplated giving the counties supervision that belonged to the board of control.

The governor also sent a final message congratulating the members on the work of the session and expressing thanks at the courtesies and kind treatment shown him.

Wild Rush for Lands.

Durango, Colo., May 5.—Promptly at noon Thursday the heretofore impenetrable walls of the famous Ute reservation crumbled before the president's proclamation, which had removed the bars that for more than twenty years had withstood all attacks of the enterprising homeseeker. The start was made from different points, hundreds joining in the rush. It is estimated that 1,000 persons sought in various ways to secure land.

May Tie Up the Lakes.

Buffalo, N. Y., May 5.—The grain shovellers and the freight handlers have pronounced their ultimatum to the Lake Carriers' association. At a mass meeting Thursday it was announced amid great applause that unless the Lake Carriers' association acceded to the demands of the men by today noon the entire commerce of the lakes from Buffalo to Duluth would be tied up.

Paul Lawrence Dunbar Ill.

New York, May 5.—Paul Lawrence Dunbar, the Afro-American poet and novelist, is ill with pneumonia. Dr. Johnson is hopeful that Mr. Dunbar will pull through, but is taking no chances, and visits the patient three or four times a day.

Cullinan Warship Wrecked.

Valparaiso, May 5.—Reports have reached here of the loss of a vessel of the Chilean navy in the straits of Magellan. Details of the disaster are entirely lacking, not even the name of the vessel being as yet known.

ROSEBUDS

Budding womanhood! What glorious possibilities! What hidden dangers! What a time for tender sympathy! At puberty nature generally makes some attempt to establish physical regularities, but when nature fails to assert itself, developments result which injure the health and impair the constitution of the maiden. The timely use of Bradfield's Female Regulator, the standard remedy for all weaknesses and irregularities peculiar to women, is what retarded nature needs in all such cases. Sold by druggists for \$1. Books for women free.
